

◆ COMPLETE SIGNUP FLOW · LOCKED · FOR REPLIT

Welcome → Phone → Code → *Profile.*

Four screens. Roughly 60 seconds from tap to home. Each screen carries the same brand voice, the same typography, the same gold-on-green hierarchy. Step indicator at the top of every screen tells the user where they are in the flow.

◆ THE FULL SIGNUP FLOW · ENGLISH · 4 SCREENS

Same voice, *every screen.*

By continuing you agree to our [Terms](#) and [Privacy](#).

◆ THE BRAND THESIS, CENTERED

"Stay close." at 60px, italic "close" in gold. Subtitle one line, three vows. **No transactional language anywhere.**

Send code →

Standard message rates apply.

◆ PHONE-FIRST, PASSWORD-NEVER

Country flag detected from device locale. **One field, one button** — friction goes to zero.

Change number

◆ AUTO-FILL ON IOS

When the SMS arrives, iOS will auto-suggest the 6-digit code above the keyboard — **one tap to fill all 6 boxes**. Same for Android with SMS Retriever API.

Finish setup →

◆ THE BRAND THESIS, ASKED ALOUD

"Where are you from?" is the question banks treat as a threat. **Cowry treats it as identity** — and pre-fills the home screen with the right currency and payout rail.

◆ RETURNING USER · 1 TAP · UNDER 2 SECONDS

◆ THE THRESHOLD MOMENT

Dark vault unlocks to cream light. Note "Add someone to stay close to" — every micro-copy reinforces the brand thesis.

Complete copy library — *for il8n*

Every string from every screen, in all four languages. Drop into `locale/[lang].json` in your Replit project. Use `t('key.name')` in your code, never hardcode.
